

Pool Vac Classic™

AUTOMATIC SUCTION CLEANER

Automatic Programmed Steering

Features of the Hayward® Pool Vac Classic automatic in-ground cleaner:

- Pre-programmed steering pattern assures thorough, efficient pool coverage
- Superior Turbine Technology – Operates silently with no pulsating hoses or noisy parts
- Easy to use – Connects in less than 10 minutes to skimmer or suction port
- Removes small to medium-sized debris
- 32' of hose included
- 1 year limited warranty

High-Flow Hose

- Reduces hydraulic friction for efficient operation
- No bags to empty or replace
- Powered by existing filtration system
- 32' of hose included

Adaptive Steering Assembly

- Guides the hose as programmed steering maneuvers the cleaner around the pool, eliminating hose tangles

Superior Turbine Technology

- Turbine-drive system for smooth, silent operation

Advanced Pod Propulsion

- Eliminates the need for wheels and belts
- Consistent performance and long life

Vacuum Wings

- Downdraft design captures small to medium-sized debris

Intelligent cleaning every time.

Pre-programmed steering makes the Pool Vac Classic™ faster and more efficient than any random style pool cleaner. Pool Vac Classic moves in a predetermined series of right and left turns to systematically provide more thorough coverage of your pool's surfaces. The Pool Vac Classic scoops up small to medium-sized debris and deposits it directly into your existing filtration system. No need for additional equipment or expense. For the ultimate in easy, trouble-free operation, leave your pool cleaning to Hayward's Pool Vac Classic.

Your pool is made more enjoyable with the Pool Vac Classic.

The Pool Vac Classic from Hayward gives you easy, trouble-free operation. And because it's powered by your existing filtration system, you don't have the expense of an energy-consuming booster pump. You won't waste time emptying or replacing debris bags. Getting that sparkling clean pool is easy and effortless with the Pool Vac Classic. When you install your new Pool Vac Classic as part of the Totally Hayward® System, you get the assurance of knowing you have a complete system, designed to work together. For an even better clean, use one of the industry's most sophisticated suction pool cleaners available, the Pool Vac XL™ or Navigator® Pro.

ACCESSORIES

MODEL 1005CC

Pool Vac Classic model for concrete pools

The optional Leaf Canister interconnects in-line, trapping leaves and debris before reaching your pool's filter system. Its see-through design lets you know when to empty.

The optional Skimmer Vacuum Plate automatically alternates between vacuuming the pool and skimming the pool's surface with each cycle of the filtration system's time clock.
